Partner

About

A team of **professionals** with the aim of providing an **innovative** service to all our clients.

We have expertise in IT, marketing, creative industry, design, training and consultancy.

We work in synergy to turn your **project into reality**.

Our mission

We **support** small and medium-sized companies, on a national and international level, in defining a **growth path** through the solutions developed by our departments.

We develop **tailor-made** and up-to-date proposals that respond to the **needs of the context** in which the project is to take place.

What we offer

Technological development

- Websites and apps development
- Bespoke software
- Developing of Management Systems
- E-commerce websites
- Technical assistance

Training and Consultancy

- Targeted know-how
- Problem solving and management
- Growth strategies and scalability

Creativity and Design

- Corporate identity design
- Graphics and Publishing
- Renovation and Re-styling
- Tailor-made branding
- Mission statement enhancement

Sales and selling

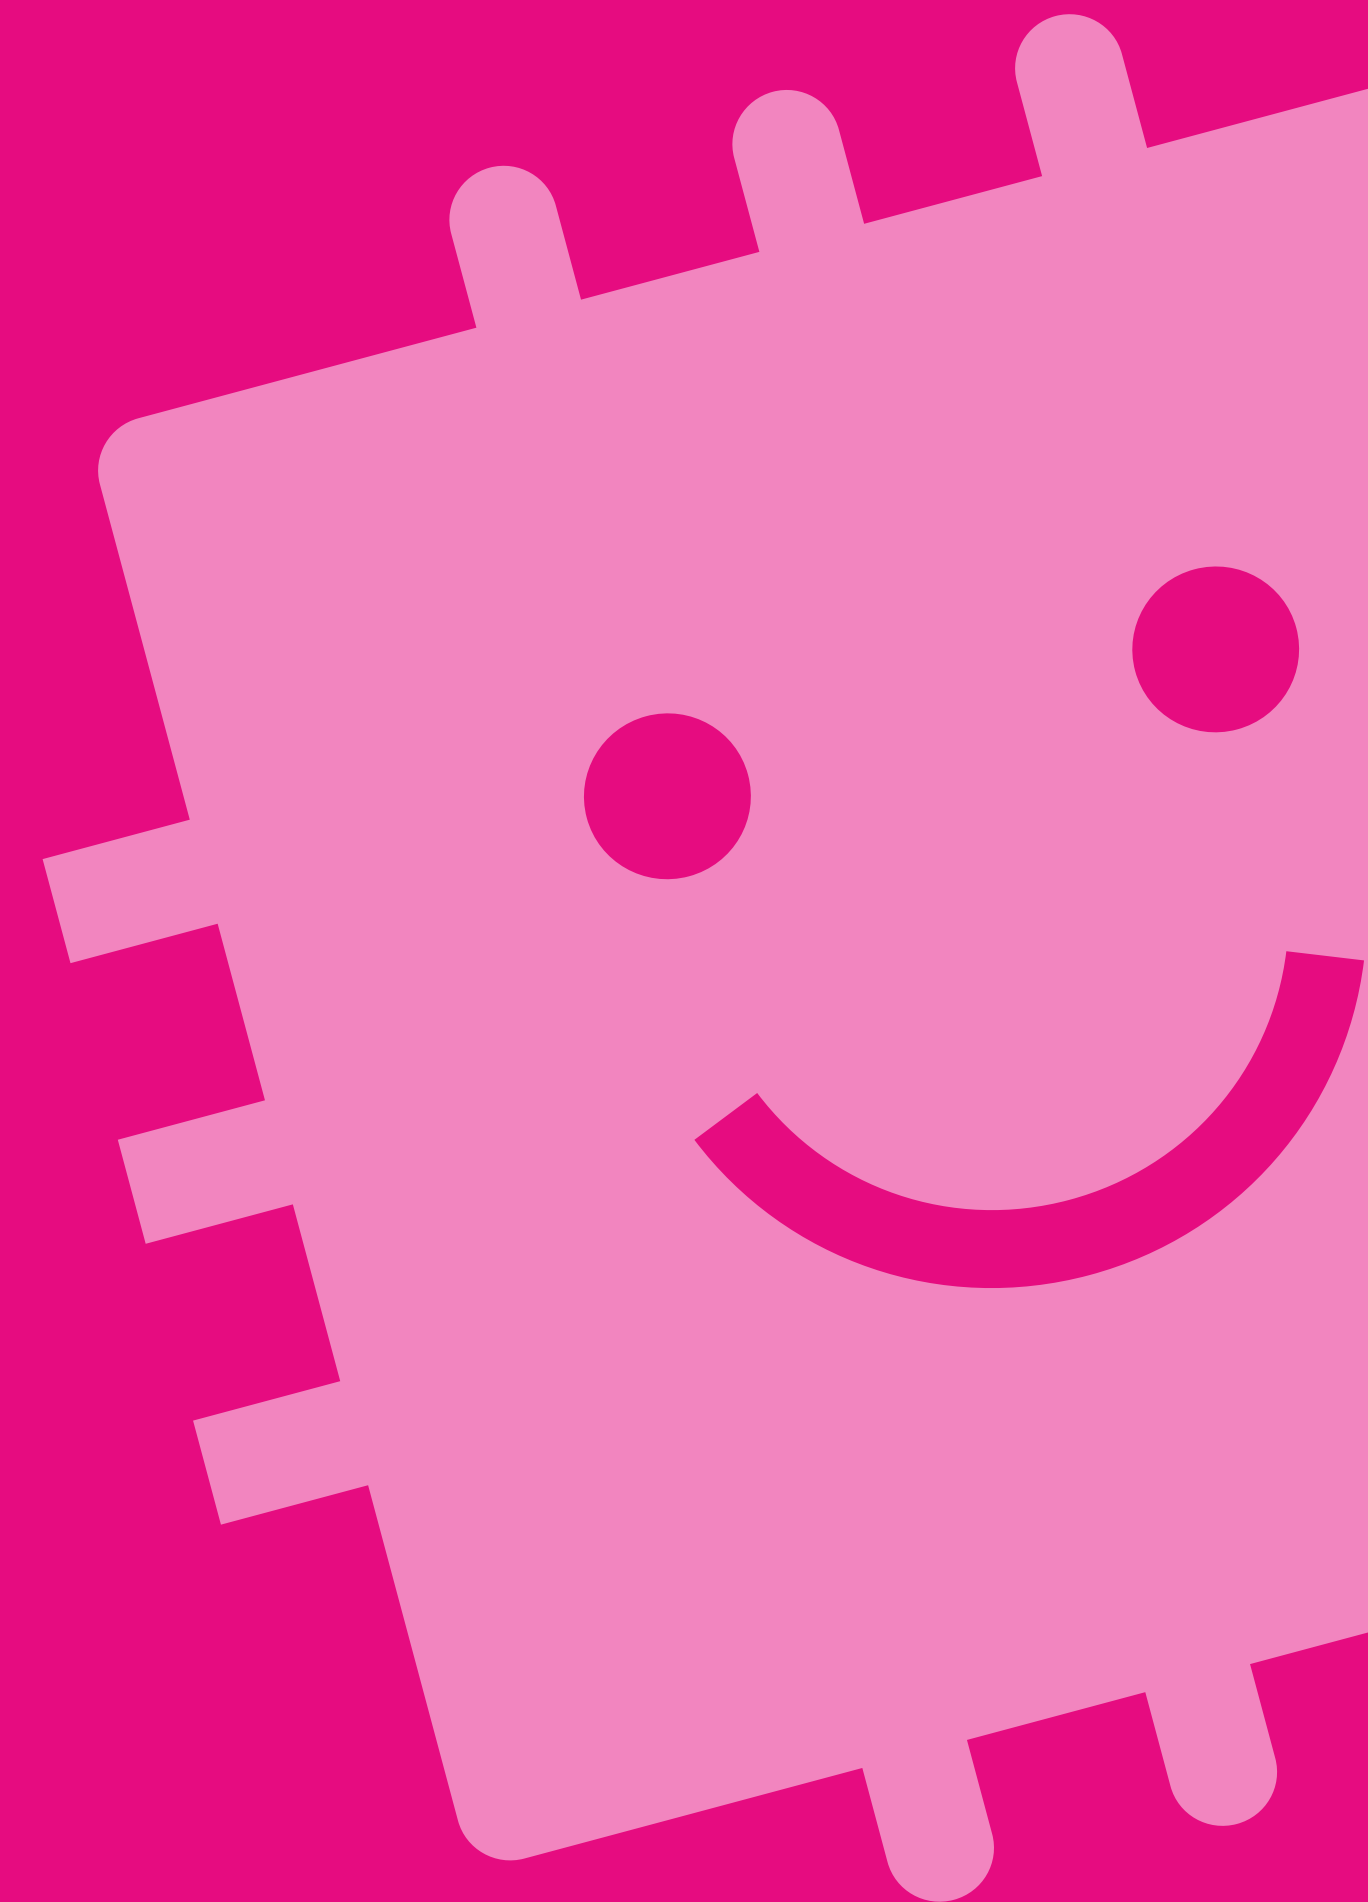

- Brand identity communication
- Advertising and broadcast
- Marketing campaigns development

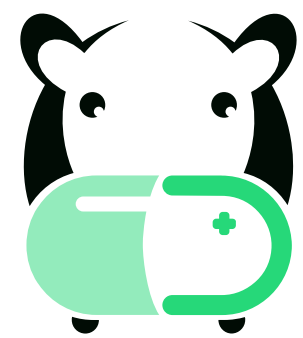

Your idea

From project to reality in three steps:

- 1 **Free Brainstorming** session, to bring out the strengths of your idea
- 2 We provide you with our **best resources** to give shape to your idea
- 3 We stay by your side to **make it happen**
(sometimes by co-participating, allowing you to manage your investment, and providing you with a technical partner)

Some of our projects

IppoFarm
www.ippo.farm

Cutting-edge **Cloud** solutions for **healthcare operations**, avoiding the need of complex hardware, and allowing employees to focus on **patient care**.

IppoFarm turns data into **strategic decisions**, helping healthcare facilities improve their efficiency.

Dividendo
www.dividendo.cloud

Dividendo solves a critical challenge within the **construction industry**: obtaining a clear real-time overview of the **work progress**, simplifying management and optimizing all project phases.

The platform offers project and inventory **management** features, analysis and reporting, time, cost and progress **tracking**.

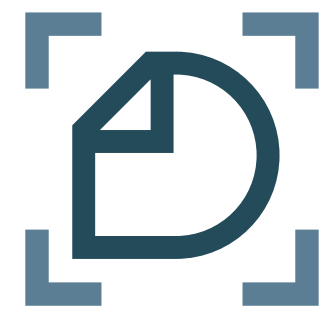

LockTime.click
locktime.click

LockTime is a web app that creates **legally valid**, timestamped proof in real time.

Using a smartphone and a REM account (Italian PEC technology), users can **certify events** by sending photos, videos, or PDFs via certified email, ensuring **traceability and authenticity** while helping reduce disputes and fraud.

Some of our projects

QRDoc
www.qrdoc.cloud

Organize, share and display your documents through **QR Codes**.

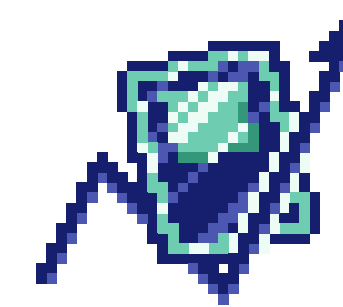

With its swift and secure system, you can access all the necessary **information** within your documents directly from your device, **reducing** the use of paper documentation.

Space4Works
www.space4.works

Space4Works connects professionals with **underused workspaces**.

Through geolocated search and advanced filters, users can **book meeting rooms**, private offices, studios, or event spaces, with verified reviews, transparent pricing, secure payments, and **on-demand professional services**.

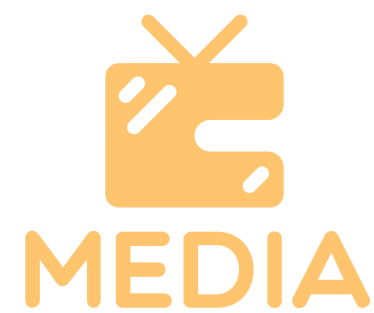

NerdInvest
www.nerdinvest.cards

NerdInvest uses its proprietary Knowledge Graph TCG to aggregate and structure information **on millions of cards**, variants, and market trends.

It combines free analytics, a **SaaS platform** with predictive models, and blockchain tokenization for fractional ownership of rare cards.

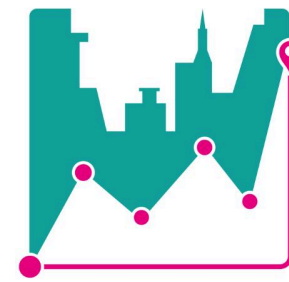

Some of our projects

CybuMedia
www.cybumedia.it

Advanced digital **signage** platform, designed for content display through a system of modular “tiles” screens, **adaptable** to any communication need.

Create and manage dynamic and **multimedia** contents, providing an immersive visual experience.

CityGame
www.citygame.tours

Born during the covid years to solve tour operator issues, it creates a real **virtual tour**, where tourists can explore cities using their **smartphone** as a guide.

Simple and fast, it helps tourists **discover activities** and places in their own cities, through a platform that offers **information and guides** in its tours.

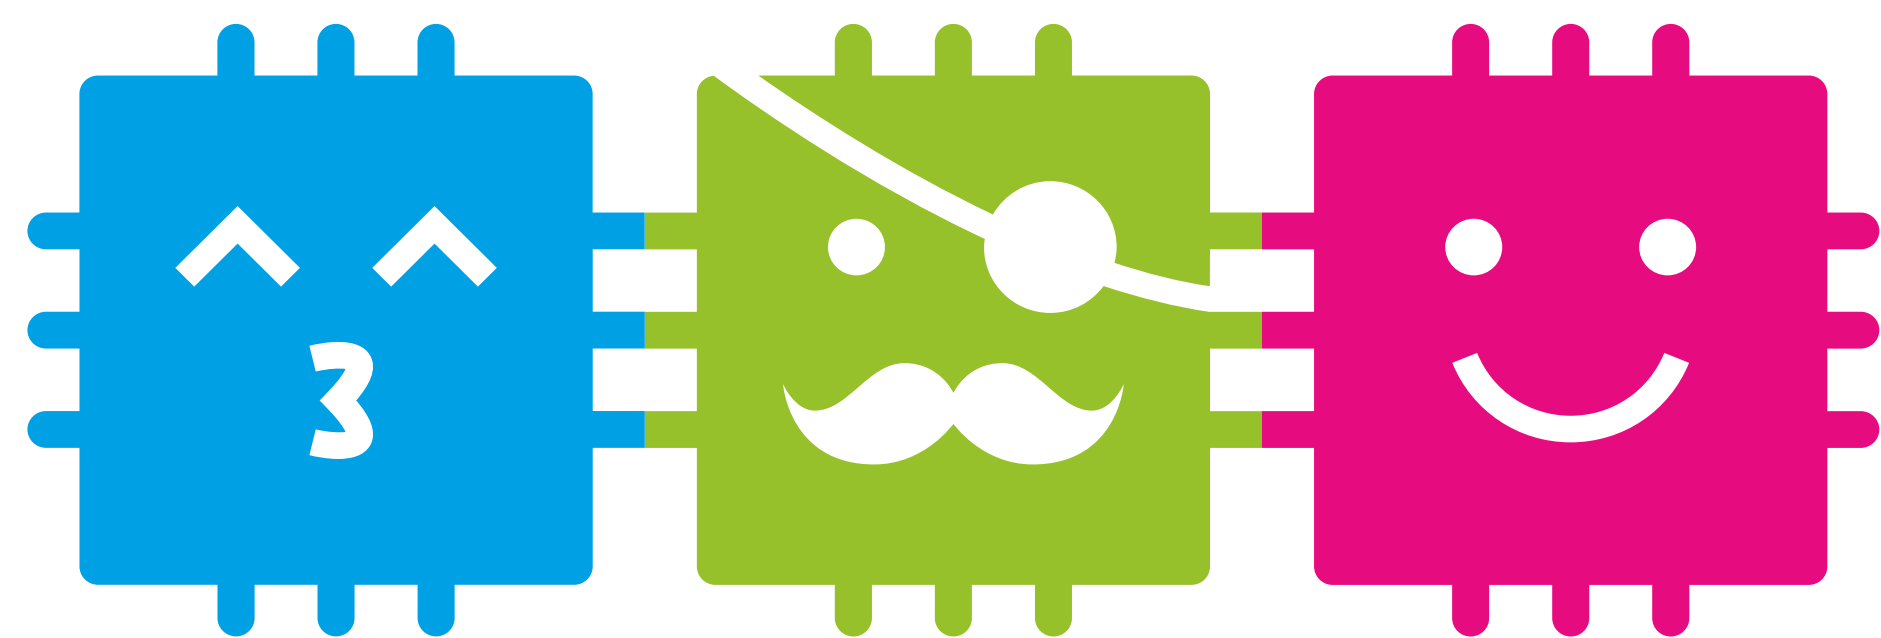

FlyTribu
www.flytribu.com

With the goal of delivering the same **training standard** within flight schools, FlyTribu offers a comprehensive and intuitive **management system** that allows for improved training **quality** and operational efficiency.

It provides flight schools with a competitive **advantage** by simplifying the experience for students and instructors.
